WORK EXPERIENCE

Freelance Frontend Developer — Self-Employed

Frontend Developer
2026 – Present | Bangladesh

- Developed responsive web applications using React.js, JavaScript, Tailwind CSS, and REST APIs.
- Integrated REST APIs and implemented responsive, user-focused interfaces across desktop and mobile devices.

SUMMARY

Frontend Developer skilled in React.js, JavaScript, HTML5, CSS3, and Tailwind CSS. Experienced in building responsive web applications, integrating REST APIs, and implementing state management with Redux Toolkit and Zustand. Familiar with Git, GitHub, Next.js, and modern frontend development workflows.

FEATURED PROJECT

Orebi

React.js TailwindCSS Redux React Router REST API

Developed a responsive e-commerce website using React.js, Tailwind CSS, Redux Toolkit, and React Router, with a component-based architecture and centralized state management for cart functionality. Integrated product data through REST APIs to create a smooth shopping experience with responsive UI, product browsing, and cart management

More Challenges

- Built a responsive, mobile-first interface with Tailwind CSS to ensure consistent layouts and interactions across desktop, tablet, and mobile screens.
- Structured the application into reusable React components and organized routing with React Router, making the codebase easier to maintain and extend.
- Managed cart operations such as adding, removing, and updating product quantities using Redux Toolkit.
